

# DATALIGHT® SMI Loop

**product description:**

Bridge with SMI plug as supporting tool for attenuation measurement and qualifying of installed DATALIGHT cabling.

The Loop is coupling the light from one core of the duplex fibre into the other core. After connection of one SMI Loop to each SMI Keystone Coupler, injection and measurement of the light signal can be done at the central point with low effort - walking back and forth or a second technician is not necessary.

Art-No.:	Type	Content	PU	Overall-width mm	Overall-height mm	Depth mm	PU/kg
257 53 001	DLSMI-L	5	PCS	70	40	10	0,01

Characteristics	
Design	Measuring cable
Connection	1 x SMI plug

Accessories		
Connector	DLSMI-KC	257 51 001
Measuring device	DLPM	257 60 001

Hotline	
<p>Since technical developments cannot be foreseen, electrical installations should provide the possibility to be expanded at any time.                      If you generously install a system of unused conduits today, you can easily expand your electrical installations later.                      You save lots of time, money and effort!</p>	<p><b>We are happy to help you with any technical questions.</b>  <b>Prompt information can be obtained from our technical consultants at +49 9525 88-8123.</b></p>
